

The Millennium Wolves (The Millennium Wolves, #1) By Sapir A. Englard **The millennium wolves book** Why not just get your book actually published? It would also be nice if it was removed from ads for other apps like inkitt so people dont download the app to be disappointed when they realized that it has gone to galatea too. **The millennium wolves read online free sapir** The Millennium Wolves (The Millennium Wolves #1) I can't even finish this I read some spoilers reviews and this doesn't end well not at all along with the fact you have to wait hours to read this series in the app. **The millennium wolves sapir englard** The spelling and grammar were terrible I have to assume this was written with her eyes closed and spell check off - there is no feasible way auto correct (even on an iPhone) wouldn't catch at least some of these errors. **The millennium wolves book** They meet almost immediately he bites her then they're dry humping and she hates him but then she loves him then bam they're "mated" story over all other subplots are forgotten. **The millennium wolves book** When the two lovers finally do have sex we get treated to him just ramming it right in there and in the heat of the moment she describes him as 'going so deep she can feel him touching her womb'. **Book the millennium wolves** But to top it all off almost every sex scene reads a bit like sexual assault as she always tells him to stop and get off her and some even have her crying! But wait there's more! The book doesn't just stop at hints of sexual assault it actually gives us an attempted rape scene that serves no actual purpose other than to push forward the romance. **The millennium wolves book 1 pdf free** It happens she's saved halfway through she has a cry about it and then the next day is fine it's never brought up or discussed again (except for her to think how great of a guy her lover is because he saved her from it).

### **The millennium wolves book 3**

I hate that you can only read this book on the Galatea app though especially since the story is finished: **The millennium wolves free read online** You literally have to pay for points in order to go to the next chapter and since the book is over 200 chapters long that's a lot of freaking money: **EBook The Millennium wolves** So yeah no—probably won't ever finish to be honest and I'm not invested enough to care to, **The millennium wolves read online free sapir** In the end that price tag isn't worth continuing on in this series for me. **The millennium wolves book 3** The Millennium Wolves (The Millennium Wolves #1) The first book wasn't written well at all, **Book the millennium wolves** There were tons of grammatical errors it was hard to read but I was interested in where the story would go so I kept on: **The millennium wolves book series in order** The background music is unnecessary you can only read one chapter a day or pay double that the book is worth in point to read more: **Book the millennium wolves** The Millennium Wolves (The Millennium Wolves #1) Well this is quite the gimmick, **The millennium wolves book series** This "book" is only available on Galatea which is an app where you either pay for a full year or you pay for points: **The millennium wolves book 3** It was advertised on FB and as I was in avoidance mode decided to give it a go, **The millennium wolves book series** I was able to read several pages and then wham you either have to wait 5+ hours for the next 3-page instalment (aka "chapter") or pay up, **The millennium wolves book 1 pdf free** I bought some points to buy chapters before I realized how short a chapter actually is: **Fiction The Millennium wolves** When I looked at the chapter list there were 6 books and I'd gotten to the start of "book" 3, **Fantasy The Millennium wolves book** I decided to not be parted from anymore of my money as 1/ it's ridiculously expensive for what you get and 2/ what you get wasn't worth my time. **The millennium wolves book series in order** The Millennium Wolves (The Millennium Wolves #1)

God himself could not do enough to get me to read the rest of this series or the rest of this author's work: **Book the millennium wolves** Her constant angst about having sex with him? One session of dry humping and it doesn't matter. **Millennium wolves book 1** Her worry over her dead friend Emily? One trip on a Ferris wheel and one "panty dropping look" and it doesn't matter. **Book the millennium wolves** The whole big to-do about the millennium wolves showing up? She runs off and has a cry about her relationship - it doesn't matter. **Millennium wolves book 1** There are not enough words to describe exactly how bad the sex scenes are. **Read the millennium wolves online free pdf** The words used to describe the characters' anatomy constantly change from dick to cock and pussy to cunt making each sex scene jarring: **Book the millennium wolves** Not to mention the moment where the word boob is actually used in the middle of a sex scene in a book for adults: **The millennium wolves free online** But wait there's more! Get ready for some casual racism as the main character describes any POC she comes across. **The millennium wolves mate me pdf** Like someone's girlfriend she describes as being "black short and round with wild dark locks and big dark eyes, **The millennium wolves book 1 pdf free** Overall this book is a garbage fire and there is no amount of post-release editing in the world that could save it: **The millennium wolves book series in order** The Millennium Wolves (The Millennium Wolves #1) I enjoyed reading this book but I'm not a fan of the format of reading this book: **The millennium wolves epub** Your only allowed to read one chapter per day literally 1 in a 24 hour period. **The millennium wolves read online free sapir** The amount of points needed to download each book to me doesn't seem worth it. **The Millennium Wolves fantasy book** I wish I could read the series like other book series all available at once either digital or hard copy, **The millennium wolves series** The Millennium Wolves (The Millennium Wolves #1) Well I try to read this story to be honest I like it so I upload the Galatea app: **The millennium wolves book 1 pdf free** But I hate it to have to wait every time before you can read a new episode: **The millennium wolves book series in order** And to buy the point and read with them is for my opinion very very expensive: **The millennium wolves book 1** I prefer to read a story all at once and just buy a book or a epub book so I can read it when I want, **EBook The Millennium wolvesville** I feel sad that this writer had it done this way and not by a normal publisher. **Millennium wolves series book 1** The Millennium Wolves (The Millennium Wolves #1) great story but I need to end it for now and wait until it is traditionally published: **Book the millennium wolves** I would invest money but the money I would have to spend to read the whole book equals easily 4-6 ebooks I could buy instead, **The millennium wolves book 1 pdf free** so sadly I must shelf it as dnf -> due to this ridiculous app The Millennium Wolves (The Millennium Wolves #1) Ok I tried this, **The Millennium Wolves fantasy football** And the Galatea app is annoying so reading what I did took forever, **The millennium wolves book 3** The Millennium Wolves (The Millennium Wolves #1) Sienna is a nineteen-year-old werewolf with a secret: she's a virgin. **The millennium wolves book series in order** She's dead set on making it through this year's Haze without giving into her primal urges -- but when she meets Aiden the alpha she forgets all about her self-control: **The millennium wolves book 3** England is the author of The Millennium Wolves an erotic werewolf fantasy series which has been read over 125 million times on Galatea's mobile app: **The millennium wolves book 3** A graduate of Berklee College of Music Sapir is a full time writer public speaker and music producer: **The millennium wolves book 1** Born and raised in

The Millennium Wolves (The Millennium Wolves #1) 3.5How I got sucked into this first book I don't know. Sometimes you just need some shifter spice. But I can tell you I've officially given up. The fact that it's on the galatea app is frustrating. Anyway I'm not even sure I fully finished this book. I'm completely disappointed with the author of this story. My heart literally feels broken knowing how this story ends. People read fantasy to get away from the real world. The plot can be summed up in one word : rushed. Yeah. She was the ultimate African-American mama-bear." Not to mention moments of casual ableism and slut-shaming. You can skip ahead if you buy points. The book series is available through the Galatea app. not very very small parts every day. Sorry not for me this expensive Galetea app. this Galatea app isn't working for me. it ruins the whole experience. It was not good. Cliche non-existent plot stupid characters off-putting imagery. It was a mess. The only virgin in the pack. The Millennium Wolves (The Millennium Wolves #1)Sapir A. Sapir A. {site\_link}.
